

COVID-19

DISINFECTING FOR CORONAVIRUS

As a leader in the commercial cleaning industry DBS is closely monitoring and implementing the latest cleaning techniques to help our valued customers maintain a safer workplace.

We are proud to offer complete DISINFECTING SERVICES using the latest SPRAYING & MISTING processes

Our process

- ◆ Implements the use of HEA (High Efficiency Airless) and HPLV (High Pressure Low Volume) spray technology to apply a mist of disinfectant solution to building surfaces

Benefits

- ◆ Provides superior and more uniform coverage to building surfaces
- ◆ Allows sufficient “dwell time” for the disinfectant solution to achieve its maximum kill-power
- ◆ Service can be performed after business hours so not to interfere with your regular business activities
- ◆ Reduce employee sickness and improve “peace of mind”
- ◆ Utilizes disinfectants approved on EPA “List N” for use against SARS-CoV-2, the virus that causes COVID-19
- ◆ Efficient and cost-effective solution
